Relevance of the topics covered	0.0% 0	0.0% 0	0.0% 0	6.3% 1	93.8% 15	4.94
Physical facilities (comfort, accessibility, space, visual and auditory support) Note any issues in the additional comments section below.	0.0% 0	0.0% 0	0.0% 0	12.5% 2	87.5% 14	4.88

3. Please describe any problems or limitations which you feel hindered the course's success:

- Minor AV issues
- Need more time!
- Some classes were very small and less popular classes were in the course classes so the popular ones got filled up.
- Technical issues 2 times in which instructor needed staff to assist

4. Additional comments:

- BEST instructor ever! I will continue to take his classes each year!! This location is much better than 2017.
- Discussion of marijuana was interesting and helpful to discuss the difference between criminalization and legalization. Less discussion could have occurred due to the presence of ADM, but can see how it is relevant towards work w/ vets too.
- Frank is awesome! Very interactive.
- Great class elicited deep discussion. I would be interested in seeing more of this in future SSAS. It would be wonderful to do some of the class in an outdoor setting. Especially when we discuss alternative therapy.
- I'm not military – I work in corrections but encounter similar issues. I took this hoping it would help with PTSD and the re-traumatization of pursuing life. It met my expectations and then some.
- Wonderful and effective instructor!
