## Attendee Comments

Room was too crowded and distracting due to noise from the other room

More website information and point of reference regarding his presentation would be good the ability to get sides

I wish the ppt. was available via the mobile app.

He was a dynamic and engaging presenter

Great presentation

Other than the cussing the session was very informative.

Could have did without the cussing.

Could have did without the cussing.

Facilitator needed to slow down and breath.

He just speaks very fast during his session. His material is very good but didn't cover many things. He seems to be an excellent professional driven and motivated to help others.

He started out stating he is a caffeine addict and is hyped up on it. Talked too fast. His passion was visible.

WOW! I immediately shared this information with the senior staff this morning at our meeting. This was a wonderful informational session. I felt the passion and compassion.

Believe the boy may have ADHD spoke rather rapidly. But was quite entertaining and informative. Enjoyed the session.

Wow speaker was amazing, engaging, and well informed about topic My favorite session thus far

Excellent and engaging presenter. Best session so far!

Very energetic and interesting presenter. Excellent knowledge and presentation of topic. Very useful information well presented.

He talked fast. Sometimes it was hard to catch everything he was saying. It was a good overview.

Franks energy and passion were evident in his presentation. I learned new insight and my attention was held throughout due to his sense of humor!

Frank was excellent! Wish he had more time to share information and give more detail about how to deal with today's current drugs.

Highly present, engaging, authentic, and proficient presenter.

Learned a lot of information from this session and the presenter was great, you could tell he really cared and was very knowledgeable! The room, however was way too crowded and should have been held in a bigger-sized room.

Talked SO fast and paced constantly. Good information but know "the next level up" as I would have hoped many of us knew the basics of these current trends.

Talked too fast - but excellent.

Thank you

The presenter was passionate about this topic. He had a great deal of energy and enthusiasm.

There should be a "not applicable" option on the surveys.

Room was too small for everyone to fit--some people were turned away. Repeat this session in a larger room. Was great.
